At Summit, our team building programs are designed to create an experience that resonates. Infuse your event with positive energy by integrating a unique team building option into your agenda. These one-of-a-kind experiences take full advantage of the unique settings at Blue Mountain Resort. Your Summit Team Building program will foster effective relationships, elevate morale, and make your Blue Mountain experience unforgettable!

### The Rescuers

This search-and-rescue simulation challenges your team to find, treat, and evacuate a pair of missing scientists while recovering their valuable data. To succeed, the team must find the winning balance between planning and execution while integrating various areas of expertise.

### Lights, Camera, Action

This 'filmmaking' adventure will have your group identifying the skills needed for team success. They will be challenged to communicate this through a feature film made up of digital photographs, narration and special effects. Films will compete in the unique Summit Film Festival.

### Desert Survival

It is 10am on a mid-August day and your plane has just crash-landed in the middle of the desert. You and your fellow passengers are all right, however, getting out of this situation in one piece is going to require some quick thinking and even more importantly-you must all work together to come up with a solution.

### Building Bridges

Tap into the power of healthy communication by examining the necessary elements that make it happen. These insights are brought to life when geographically separated teams must construct components of a freestanding bridge that, once connected, must support a heavy load.

### Conquering Everest

At 8,850 m, Everest is the tallest mountain on earth, and one of the most sought after mountaineering goals. Your team will have a chance to embark on a simulated ascent of this extraordinary mountain as participants make critical decisions that will lead them to the top.

### Putt-ing People First

Charity golf tournaments seem to be everywhere these days and now your team can hold one of their own - with a twist! Designing outrageous obstacles and colourfully designed putting greens will put your team to the test, all while generating a donation to a local community food bank. This program takes place on the unique Blue Mountain Cascade Putting Course.

### Seven Summits Challenge

Want to be a high performance team? Climb the 7 Summits together, and you'll take team and individual performance to a whole new level. Utilizing the amazing Blue Mountain Timber Challenge ropes course you will need to divide into climbing teams, assign a base camp manager, develop a plan, and climb to the summit.

\$3,500 flat rate for 15 people, \$100 per person for each additional participant

**Duration:** 3 hours

**Maximum Group Size:** 42

### Put Your Chef Hat On

This highly competitive food adventure will challenge teams to create the ultimate culinary masterpiece. A great kick-off to a conference, a pre-dinner event, or anywhere you want to add some fun to your agenda. Breakfast and dessert options are also available.

### Blue Mountain Quest

It would be a shame to make your way up to Blue Mountain without experiencing the charm and energy of the Village. Shake up your meeting by taking part in this competitive scavenger hunt. Ask us about our Philanthropic and Adventure versions of this fast-paced program!

### Survive or Thrive

Through demanding tribe challenges, this program will identify key elements that separate teams who simply survive from those who consistently thrive. Add to this an element of Corporate Social Responsibility and you have the makings of a truly meaningful team experience.

All programs are two hours in length, unless otherwise indicated. Rates start from \$2,250 or \$225 per person with a minimum group size of 10 people. Rates will vary depending on group size and program alterations.

Scott Kress - Learning in Thin Air

### High-Performance Team Development

Do you have a newly-formed team or one that is simply looking for a tune-up? This session focuses on high performance teamwork, understanding its value and knowing how to intentionally achieve it at work. You'll build strong relationships and learn the critical elements of development: collaboration, problem solving, group decision making, trust and communication. Fun and challenging activities anchor several learning modules. From these engaging experiences, team members establish patterns of successful interaction. Team members will finish by developing a shared team vision and creating a code of best practices to carry them forward. This workshop is appropriate for intact teams and project teams.

### High-Performance Leadership Development

Organizations must have effective leadership at all levels in order to be successful and developing effective leaders is a deliberate and ongoing process. This program will inspire participants to set a compelling personal leadership vision, help them to assess their current reality and give them the tools they need for success. We integrate Emotional Intelligence and a suite of other personal development assessments to provide a framework for examining leadership styles and attributes, and to inform the action-planning process. The program looks at relevant leadership theories and develops important skills for engaging followers, building teams, communicating, giving feedback, coaching, managing change and connecting people to the organization's purpose. Leaders learn to create a team environment where trust, innovation and commitment flourish. Above all, they create their personal vision for "greatness" and a plan to get there.

**Half Day:** \$295 per person

**Full Day:** \$395 per person

**Two Days:** \$670 per person

### Keynote - Learning in Thin Air

Starting from \$5,500

Kick off your event with inspiration and focus, set the stage for learning and development, reward your team with a thrilling story, infuse energy and drive, or close your event with a presentation that will not be soon forgotten. Scott Kress is a noted speaker, author and leadership consultant, helping organizations turn their teams and leaders into passionate achievers. He has a Masters Degree in Leadership and has taught leadership and high performance team development for several leading national and international EMBA and MBA programs. What sets Scott apart from the traditional trainer is his ability to scale mountains. Scott is the 51st Canadian to summit Mount Everest and when he stood on the summit of Mount Vinson in Antarctica he became one of the few people in the world to climb the seven summits; the highest point on all seven continents. Scott will share stories, tools and strategies that build success regardless of the mountain you are climbing. Scott's presentations are high-energy, engaging and passionate but most importantly they are relevant to the challenges faced by organizations and their teams today.
